

To Whom it May Concern:

I am writing to voice my displeasure of the NAB trying to stifle what people can and cannot listen to. I personally do not listen to the weather & traffic channels that XM offers, but will stand up for XM's right to have these channels in their line up. I doubt that they are hurting anyone. I am tired of bureaucratic agencies like the NAB who wield their political influence and power to thwart the wishes of the masses. Please reject this petition, as it is unfair & unwarranted.

Regards,
Brad Davis
